

300 x 300mm

Company Profile

The Company Introduction

Ceramic tiles have been an integral part of mankind since time immemorial. They have been a witness to history being unfolded and have lived to tell the tale. Ceramic tiles have survived the rise and fall of civilizations and with each upheaval have added a new dimension to their properties. Today they are an integrated part of modern living combining the winning qualities of beauty and value for money.

Corson ceramic have united the toughness of ceramic tiles with modern technological advances and customer aspirations to produce a range that is vast in choice. With over 8 years of experience in this field and in depth knowledge of markets both in India and abroad, the promoters of Corson Tiles have set up a world class integrated production facility to manufacture and supply high quality ceramic tiles. The designs, sizes, colours and surface finishes will be made keeping in mind the needs of the Indian consumer. Over the years the company has built a solid customer base and a reputation both for itself and its products. To an extent they have been responsible for changing ceramic tiles from a mere commodity to a branded product.

Trust, Quality and reliability have been the watchwords of Corson Tiles and they plan to continue fulfilling the expectations of their vast array of customers. Total customer satisfaction via adoption of Quality Management Systems in all spheres of activity guarantee adherence to predicated standards. The company nurtures each relationship be it with the trade, consumers or suppliers. This has established Corson Tiles as a reliable and trustworthy entity capable of overcoming market challenges.

Just like their historical counterparts, Corson Tiles will be around to witness future market developments and participate in remaking the personality of the humble ceramic tile.

	Mohs Hardness		8
	Flexural Strength	>20 N/mm ²	>45 N/mm ²
	Abrasion Resistance	<204mm ² (EN 176)	<144 mm ²
	Thermal expansion	9x10.6 (EN 176)	<6x10.6
	Thermal Shock Resistance	No Damage	No Damage
	Resistance To Acid (Wt. Loss)	<1.5%	<0.4%
	Skid Resistance (Friction Coefficient)	>0.4 (EN 176)	>0.6
	Breaking Strength		400Kg./cm ²
	Satin Resistance	Resistant (EN 176)	Resistant
	Moisture Expansion	Nil (EN 176)	Nil

A beautiful floor is considered by many as the most vital element of construction. It's what any visitor sees first. And most importantly, once laid, a floor seldom changes. It must therefore not only be beautiful but also retain it's beauty for years to come. But floors are subject to the daily grind & rigorous of foot traffic and to stains, ink stains, grease stains, etc. Even the best of the tiles will stain if not maintained. Fortunately the situation is not completely futile, we at VITA in tandem with leading research laboratories have found solutions for these irritants.
